The Natrelle® ConfidencePlus® Warranty Program

Offering you more coverage for your peace of mind

Nikki
Natrelle INSPIRA® Style SRF-415
Individual results may vary.

Please see inside for Indications and Important Safety Information.
Who may get breast implants (INDICATIONS)?

Natrelle® Breast Implants are approved for women for the following:

- Breast augmentation for women at least 22 years old for silicone-filled implants.
- Breast augmentation for women at least 18 years old for saline-filled implants.

Breast augmentation includes primary breast augmentation to increase breast size, as well as revision surgery to correct or improve the result of a primary breast augmentation surgery.

More coverage. More confidence.

Natrelle® ConfidencePlus® Warranty

The Natrelle® ConfidencePlus® warranty offers you more coverage for your breast implants—all designed for your peace of mind and satisfaction.

ConfidencePlus® Premier for Natrelle® Gel implants
- The **ONLY** warranty with a 10-year FREE breast implant replacement in the event of capsular contracture (Baker Grade III/IV)
- The **ONLY** warranty to cover primary AND revision surgeries in the event of capsular contracture (Baker Grade III/IV)
- The **ONLY** warranty that allows you to choose ANY style and size of Natrelle® Gel breast implant for replacement in the event of capsular contracture (Baker Grade III/IV) or rupture

- Enroll within 45 days of surgery for ConfidencePlus® Premier warranty: **$200**

- **ConfidencePlus® Premier** surgery cost assistance (for deflation): Up to $2400 for 10 years

Who may get breast implants (INDICATIONS)? (continued)

- **Breast reconstruction.** Breast reconstruction includes primary reconstruction to replace breast tissue that has been removed due to cancer or trauma or that has failed to develop properly due to a severe breast abnormality. Breast reconstruction also includes revision surgery to correct or improve the result of a primary breast reconstruction surgery.

Please see Important Safety Information on following pages.
Important terms and conditions to know

Products covered
The ConfidencePlus® warranty program applies to all FDA-approved Natrelle® breast implants, provided the products have been used:

• As intended by appropriately qualified and licensed surgeons, in accordance with current and accepted plastic surgery techniques
• In accordance with the current Natrelle® Breast Implant Directions for Use, found at www.allergan.com/labeling/usa.htm

Events covered
The ConfidencePlus® warranty program applies only to cases of:

• Loss of shell integrity, resulting in implant rupture or deflation that requires surgical intervention
• Capsular contracture (Baker Grade III/IV) with Natrelle® Gel implants that requires surgical intervention

Special considerations
Each Natrelle® breast implant is covered individually. So, in the case of rupture, deflation, or capsular contracture (Baker Grade III/IV), you may choose to replace both implants or only the damaged implant. Coverage of the opposite (contralateral) implant will continue for the remaining life of the warranty.

Events not covered
The ConfidencePlus® warranty program does not apply to the following:

• Removal for capsular contracture for saline implants
• Dissatisfaction with implant size or aesthetics

Events not covered (continued)
• Adverse reactions other than implant deflation, rupture, or capsular contracture (Baker Grade III/IV)
• Loss of product integrity caused by cosmetic revision surgery
• Loss of product integrity caused by open or closed capsulotomy
• Other manufacturers’ products
• Financial reimbursement for a replacement product that is not a Natrelle® style breast implant in lieu of a Natrelle® style replacement product

To submit a claim
Your surgeon must contact the Allergan Product Surveillance Team at 1-800-624-4261 prior to replacement surgery. The surgeon is required to return the explanted, disinfected Natrelle® breast implant(s) within 3 months of the date of explantation. Allergan requests the return of all explanted breast implants associated with a complaint to assist with evaluating and maintaining the quality and safety of Natrelle® breast implants.

Financial assistance will be issued upon receipt and verification of the explanted product(s), the Returned Goods Authorization (RGA), and the patient’s warranty general release.

Enrollment
For Natrelle® Gel patients, enrollment in the ConfidencePlus® Premier warranty is automatic and free. You do not need to do anything.

For Natrelle® saline patients, the ConfidencePlus® Standard warranty is automatic and free. However, if you would like to upgrade to the ConfidencePlus® Premier warranty, the enrollment fee is $200 and must be completed within 45 days of surgery by submitting the completed enrollment form by mail, fax, or online at Natrelle.com/warranty.

IMPORTANT SAFETY INFORMATION (continued)
What else should I consider (WARNINGS)? (continued)

• Rupture of a silicone-filled breast implant is most often silent and may not be detected by you or your doctor. You should have an MRI 3 years after your surgery and then every 2 years after that for as long as you have your breast implants to determine if rupture is present. If implant rupture is noted on an MRI, you should have the implant removed, with or without replacement.

• With breast implants, a routine screening mammography and self-examinations for breast cancer will be more difficult. Ask your doctor to help you distinguish the implant from your breast tissue. Symptoms of a ruptured implant may be hard knots or lumps surrounding the implant or in the armpit, change or loss of size or shape of the breast or implant, pain, tingling, swelling, numbness, burning or hardening. Tell your doctor of these symptoms and remove ruptured implants.

• Inform any other doctor who treats you of the presence of your implants to minimize the risk of damage to the implants.

Please see additional Important Safety Information on following pages.
IMPORTANT SAFETY INFORMATION (continued)
What types of conditions require more study (PRECAUTIONS)?
Caution: Notify your doctor if you have any of the following conditions, as the risks of breast implant surgery may be higher:
• Autoimmune diseases (for example, lupus and scleroderma).
• A weakened immune system (for example, currently taking drugs that weaken the body's natural resistance to disease).
• Planned chemotherapy following breast implant placement.
• Planned radiation therapy to the breast following breast implant placement.
• Conditions that interfere with wound healing and blood clotting.
• Reduced blood supply to breast tissue.
• Clinical diagnosis of depression or other mental health disorders, including body dysmorphic disorder and eating disorders. Please discuss any history of mental health disorders with your surgeon prior to surgery. Patients with a diagnosis of depression or other mental health disorders should wait for resolution or stabilization of these conditions prior to undergoing breast implantation surgery.

Please see additional Important Safety Information on back cover.
Natrelle® ConfidencePlus® Warranty Program

With Natrelle®, you’re choosing more than an implant, you’re choosing a lifetime partner.

- The **ONLY** warranty with FREE gel breast implant replacement for up to 10 years in the event of capsular contracture (Baker Grade III/IV) for Natrelle® Gel implants*

For more information about the ConfidencePlus® warranty program, please talk to your surgeon or visit Natrelle.com/warranty.

*Valid for surgeries on or after November 1, 2014.

**IMPORTANT SAFETY INFORMATION (continued)**

What are some complications with breast implants (COMPLICATIONS)?

Key complications are reoperation, implant removal with or without replacement, implant rupture with silicone-filled implants, implant deflation with saline-filled implants, and severe capsular contracture (severe scar tissue around the implant). Other complications include asymmetry, nipple/breast/skin sensation changes, scarring or wrinkling/rippling. Talk to your doctor about other complications.

Talk to your doctor. For more information see the Patient Brochures at www.allergan.com/labeling/usa.htm or call the Allergan Product Support line at 1-800-433-8871.

To report a problem with Natrelle®, please call Allergan Product Surveillance at 1-800-624-4261.

Natrelle® Breast Implants are available by prescription only.
